## AUR50216 Diploma of Automotive Technology

### Recognition of Prior Learning/ Gap Training Program

#### Outcome

This program is designed to produce individuals who diagnose, analyse, evaluate, design and modify vehicle systems in the automotive retail, service and repair industry.

#### Training Package Entry Requirements

This Program may be accessed by direct entry through formal skills recognition assessment processes.

#### Student Target Group

Participants entering this program are those that **have current and/or recent skills and knowledge against the units of competency** listed in this flyer. They:

- May have **already completed a trade program** that has been **outdated** (superseded) and they wish to gain the current formal qualification for work requirements, or
- May not have had any formal qualification however they have been working in a comparable role **for at least 3 years**
- Must be over 18 years of age on course commencement and have successfully completed year 11 or equivalent (trade qualification)
- Must complete a Pre-Training Review including LLN\* foundation level test
- May apply for credit transfer of units issued from other RTO's however, due to the complexity of this trade course, all applicants applying for accreditation through The Learning Professionals CT and RPL Programs will be required to complete a 'skills assessment' to **verify the current skills and knowledge against the units.**

\*Language literacy and numeracy (LLN) levels are not a barrier to entry; it helps us understand how we can support you in your learning journey with us. An LLN test is not required if applicant has completed 12 months of study in an AQF program at the same level or higher than this qualification within Australia

#### Location

This course is delivered at

- Theory – Distance Learning (online training and assessment)
- Practical – In own workplace (Video linkup recordings of practical training and assessment)

#### Skills and Knowledge Assessment and Training

Applicants are to **provide a portfolio of evidence of their current skills and knowledge** via video recordings of them completing task, industry expert reports confirming their current skills and knowledge in the workplace against unit of competency requirements (performance evidence) and knowledge testing (knowledge evidence) provided by The Learning Professionals.

#### Duration

This Program is delivered up to 12 weeks RPL Portfolio Development and Gap Training (as required).

#### Training and Assessment

The programs are delivered by Recognition of Prior Learning (RPL) via flexible blended training, consisting of Skills and Knowledge Assessment, distance Gap Training (as required) Participants must:

- have access to the internet, mobile phone with camera and computer to complete this program
- provide their own workplace to conduct practical assessment activities
- provide their own diagnostic technician tool kit, Personal Protective Equipment (PPE) and work clothing
- will be required to complete a 'skills test' to verify the current skills and knowledge against the units requested

### Recognition of Prior Learning/ Gap Training Program

#### Pathways after program completion

On completion of this course you may take up further study in

- Automotive Diagnostics Master Technician in automotive workshops

#### Fees

##### Mandatory

- |                            |    |              |
|----------------------------|----|--------------|
| • Admissions Fee           | \$ | 100          |
| • Credit Transfer fee      | \$ | 100          |
| • Skills Assessment Fee    | \$ | 500          |
| • Portfolio Assessment Fee | \$ | 1,500        |
| • Total                    | \$ | <b>2,200</b> |

##### If Gap Training Required

- |                           |    |     |
|---------------------------|----|-----|
| Material Fee**            | \$ | 200 |
| Gap Training Fee Per Unit | \$ | 200 |

\*\*Material Fee includes learning resources (including Textbook)

**INTRODUCTORY OFFER - \$1000.00 UNTIL DEC 2020 ONLY**

#### Program Design

To achieve this qualification the student must demonstrate competency in

- 12 Units of competency comprising of 1 Core units and 11 elective unit

#### Units of Competency –

AURFA007 Develop and document specifications and procedure (CORE)

AURFA006 Conduct research and present technical reports

AURAMA005 Manage complex customer issues in an automotive workplace

AURETA001 Analyse and evaluate electrical and electronic faults in electronic over hydraulic systems

AURETA002 Analyse and evaluate electrical and electronic faults in body management systems

AURETA003 Analyse and evaluate electrical and electronic faults in monitoring and protection systems

AURETA004 Analyse and evaluate electrical and electronic faults in convenience and entertainment systems

AURETA005 Analyse and evaluate electrical and electronic faults in theft-deterrent systems

AURETA006 Analyse and evaluate electrical and electronic faults in air conditioning and HVAC systems

AURETB002 Analyse and evaluate electrical and electronic faults in dynamic control management systems

AURETE001 Analyse and evaluate electrical and electronic faults in engine management systems

AURETX001 Analyse and evaluate electrical and electronic faults in driveline management systems
